### **EXPERIENCE**

# SmartBot360, Research Intern, Riverside, CA

Mar. 2019 - Current

Nov. 2018

- Redesigned and reorganized pages in the front end for a better UI/UX, and also added new features for users.
- Wrote numerous SQL queries to send and receive data in the back end while also improving existing ones.
- Decreased the time to display core analytics from the database by more than 50%.
- Responded to design-related and functionality-related feedback and then made adjustments accordingly.
- Occasionally worked with colleagues in order to divide up tasks or to find the most optimal way to complete them.

## **PROJECTS**

Piano Tiles Feb. 2019 - Mar. 2019

- Reproduced the popular game app, "Piano Tiles," on a breadboard.
- Features sound effects, a score keeper, and the option to restart.
- Utilizes Atmel Studio 7 and an ATMega1284 microcontroller, along with various breadboard components.

RedditBot Nov. 2018

- Built a bot that utilizes the API to send responses to users based on the content of their comment.
- Oversaw a team and ensured the project's completion.
- Introduced new ideas on how to develop the project while debugging compile-time errors.

**RShell** Nov. 2018 - Dec. 2018

- Developed a program that replicates basic Bash commands using C++ and Linux system calls.
- Led the team and unit tested the project as it progressed.
- Utilized the composite design pattern and wrote a majority of the code.

Genius Searcher Aug. 2019

- Created a Google Chrome extension that would make it easier to reach song lyrics off of Genius.com.
- Can either highlight text or click the extension icon and type to get your search results.
- Inspired by the numerous amount of times I personally look up musical artists and song lyrics.

#### **SKILLS**

LANGUAGES: C++, HTML, CSS, Javascript, TypeScript, Angular, Java, SQL

**TOOLS:** Git, Bootstrap, MySQL, Node.js

### **ACTIVITIES**

Organization, ACM Apr. 2018 - Current

Active member and previously received guidance in the mentorship program.

Hackathon. Cutie Hack

Worked with a team and demoed RedditBot to a panel of judges.

### **EDUCATION**

#### **University of California Riverside**

B.S. Computer Science 2021
